

FROM DR. ALLRED

If today went well, would you tell somebody?

In a town this size, a review is how the next person decides whether to drive four hours or stay home and see me. It takes a minute, and it genuinely helps.

**Scan, then tap
your town.**

Goes straight to the
review box.

Thank you — it means more than you'd think.

IF SOMETHING ISN'T RIGHT, CALL ME FIRST.

Not the internet. Me.

A review is no place to sort out a problem, and I'd rather hear it from you than read it later. Call your clinic and say so — they'll get the message to me.
